Director of the Journal : Professor Moha El-ayachi

Email of the journal: nelga2018@gmail.com.

Presentation of the journal: AJGS & LG is a journal specialized in publishing research activities carried out in the field of geo-spatial sciences and land governance. It aims to encourage innovation, promote the exchange of knowledge and scientific outcomes related to its themes. The journal's target community is made-up of researchers, professors and professionals working in the newspaper field. The journal also aims to promote scientific articles and productions at the African, regional and global levels. The institutions as well as the international universities will enrich by their contribution the scientific level of the journal. The journal can, among other things, deal with professional themes and good practices in the field of land governance.
